BIOLASE

Get a More Confident Smile

Your smile says more about you than any other physical feature; it is the first thing other people notice. Imagine the difference a whiter smile could make for you.

Epic Laser Whitening is a revolutionary tooth whitening procedure. It's safe, effective and fast. In just 20 minutes, your teeth will be dramatically whiter.

Epic Laser Whitening is ideal for anyone looking for immediate results. The convenience of Epic Laser Whitening in comparison to days of wearing trays and gradual whitening makes it the perfect choice for the busy individual.

The Benefits of Epic Laser Dentistry

GREAT RESULTS

A hydrogen peroxide-based whitening gel is applied to the teeth and activated by the laser. The Epic treatment process lightens dark, yellowed, or discolored enamel caused by tobacco, food, and beverages such as tea, coffee and red wine. Results are noticeable immediately after the procedure.

Before

After Epic Laser Teeth Whitening

CONVENIENT FOR YOUR TIME AND SCHEDULE

Epic is an affordable investment in the beauty of your teeth and overall sense of well-being. For those with time constraints, Epic is the ideal option. The laser whitening procedure is so short, only 20 minutes, which means less time is spent driving back and forth to the dentist's office. It also means that less time will be spent away from work and less time will be spent sitting in the dental chair resulting in a more comfortable experience.

No longer is there a need to squeeze a lengthy appointment into your schedule or deal with the hassle of inconvenient, time-consuming nightly trays to achieve results. What is your time worth?

"My patients love laser whitening with the Epic laser. We see immediate, fast results of whiter, brighter teeth without any sensitivity."
